Education

Chittagong University of Engineering and Technology (CUET), Chattogram — Feb 2020 – Aug 2025

BSc. in Computer Science and Engineering

- CGPA: 3.77/4.0

Experience

Associate Software Engineer, CDDA – Aftabnagar, Dhaka — Dec 2025 – Now

- Collaborated in **Property Source**, a multitenant saas app, with industry professionals and learned about real-world applications of **Git**, **micro-service architecture**, and **SDLC**, **MVC design patterns** and modern development workflows.
- Contributed in **Vision CRM**, a NextJS app, by building REST APIs, pages, automation in cloudflare trigger and scheduler in DO.
- Became familiar with professional corporate culture and communication practices.

Junior Web Developer, Brain Machine AI – Hybrid — Sep 2024 – Jan 2025

- Developed simple dynamic websites under the EDGE course arranged by ICT Division Bangladesh and CUET CSE Department.
- Worked on frontend using **Bootstrap** and backend using **Django**.with collaborative workflows.

Projects

University Management System — github.com 2025

- Developed a database management system for a university to store and manage data for students, courses, and enrollments in a PostgreSQL database using Django. And implemented RESTful API endpoints for CRUD operations, tested with Postman.
- Tools Used: Django, PostgreSQL (via Docker), Postman, Python.

Black Board — github.com 2025

- Created a real-time multi-user collaborative drawing web application with simultaneous drawing on a shared canvas with instant synchronization across clients.
- Technology stack: Go, Gorilla WebSocket, JS, HTML5, CSS.

Technical Skills

Programming Languages: Typescript, Python, C++, C, Bash, Go, Java

Frameworks & Libraries: React, NextJs, Django, Spring Boot, Bootstrap, Flutter

Tools & Technologies: Git, REST API, SQL, Docker, CI CD, Postman, Linux

Software Design: SOLID, MVC, Clean Architecture

Problem Solving Profile

Solved about 300+ problems in various sites such as leetcode, codeforces, hackerrank, atcoder, uva etc.

Interests

Cloud Computing, Computer Security, Parallel Computing
